

Office Communication

Applicant is advised that the reply to the restriction/election requirement is not fully responsive. Applicant's election of Group I is acknowledged; however, Applicant has not fully responded to the election of species since Applicant has elected two (2) chemical species: the chemical of formula (V), and compound (90); however, in the restriction/election requirement of January 5, 2009, Applicant was required, to elect one (1) species (i.e. a single chemical with defined structural cooperative relations of the components (a)-(f)) to which the claims shall be restricted if no generic claim is finally held to be allowable. (See Restriction/Election requirement, 1/5/2009, page 3, section (II)).

To be fully responsive to this communication and to the restriction/election of January 5, 2009, Applicant is required to elect ONE chemical species for which the claims shall be restricted.

Because Applicant's response is a bona fide response, Applicant is given one month or thirty (30) days, whichever is longer, from the mail date of this communication to supply the correction.
